About Program

In this era marked by a predominantly sedentary lifestyle and various environmental challenges, we face an increasing prevalence of cardiovascular diseases at much younger ages. We are honoured to bring together esteemed experts from various fields such as Cardiology, Endocrinology, Physical Medicine & Rehabilitation, Life Style Medicine and Psychiatry to share their knowledge and insights to provide a comprehensive understanding of life style modifications in improving cardiovascular outcomes for individuals and communities.

About PSG

Established in 1985, PSG Institute of Medical Sciences and Research (PSG IMS&R) stands tall as a beacon of excellence in medical education and healthcare in Southern India. We are a part of the prestigious PSG Group of Institutions, known for its passion and commitment to quality education and holistic development.

The Department of Physiology, PSG Institute of Medical Sciences and Research strives for excellence with advanced laboratory facilities and expert faculty specializing in various branches of human physiology. We offer rigorous undergraduate and postgraduate programs emphasizing training and research. We frequently collaborate with national and international institutions to enrich our research initiatives and expertise to keep abreast of medical advancements. We strongly believe in a comprehensive approach to medical education in producing skilled professionals with academic excellence.
